EarnifyX

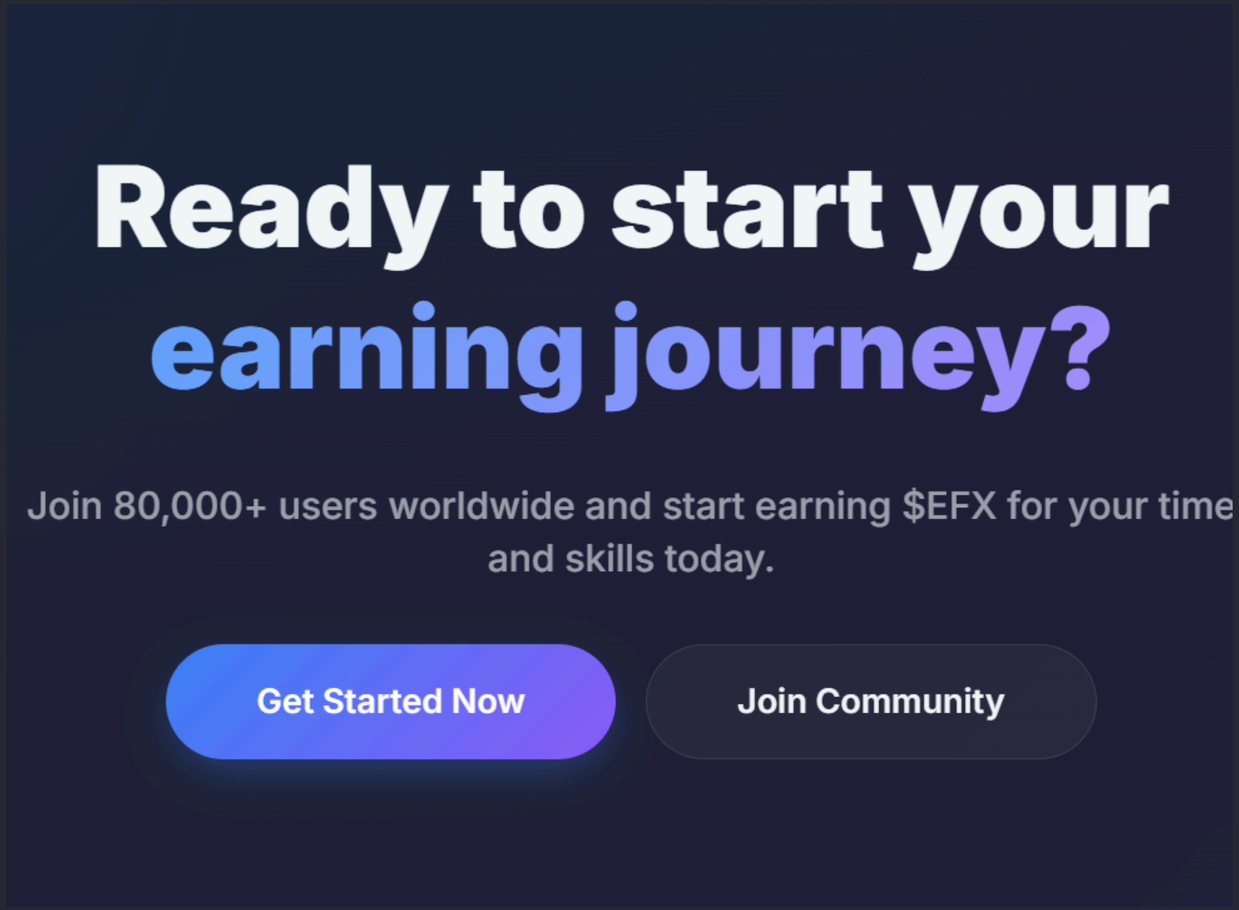
AI-Powered Task & Earning Protocol

Complete tasks. Earn crypto. Scale with AI.

WEB3 | AI | TASK ECONOMY

THE PROBLEM

A broken earning economy



Access Gap

Millions want to earn online but lack the platforms or tools to do so fairly.

Centralized Control

Traditional marketplaces extract value from workers and gatekeep opportunity.

Bots & Fake Engagement

Fraudulent activity pollutes task ecosystems and destroys campaign ROI.

Zero Transparency

No verifiable trust layer between projects, platforms, and participants.

THE SOLUTION

EarnifyX: verified earning, powered by AI

Decentralized Marketplace

Peer-to-peer task economy with no central gatekeepers.

AI Verification

Machine learning filters bots and validates every action.

Transparent Rewards

On-chain payouts distributed instantly and fairly.

Real crypto. Real actions. Real trust.

THE PRODUCT

What is EarnifyX?

EarnifyX is a Task-to-Earn platform uniting **AI** and **Web3** infrastructure to power a global, verifiable workforce.

For Users

Complete tasks and earn **$EFX** tokens instantly.

For Projects

Launch campaigns and receive **verified engagement** at scale.

CORE FEATURES

Built for scale, secured by design

AI Task Verification

Every submission is scored for authenticity in real time.

Blockchain Rewards

Instant, transparent payouts on-chain.

Campaign System

Refer-and-earn engine drives viral growth.

Reputation & Anti-Fraud

On-chain identity scores reward honest actors.

Staking & Boosts

Stake $EFX to multiply earnings and unlock tiers.

Global Workforce

Borderless access for earners worldwide.

MARKET OPPORTUNITY

A $400B+ opportunity at the intersection of three megatrends

$400B+

Gig Economy

Global freelance and task economy expanding every year.

500M+

Web3 Users

Crypto wallets worldwide and accelerating fast.

250M+

Creator Economy

Creators seeking monetization and engagement tools.

The convergence point

EarnifyX sits precisely where **Web3**, **AI**, and the **gig economy** collide — capturing value from all three simultaneously.

BUSINESS MODEL

Multiple revenue streams, one ecosystem

1

Campaign Fees

Projects pay to create and launch verified engagement campaigns.

2

Premium Boosting

Featured placement and priority visibility for high-value tasks.

3

Token Utility

Staking, governance rights, and premium task access via $EFX.

4

Service Fees

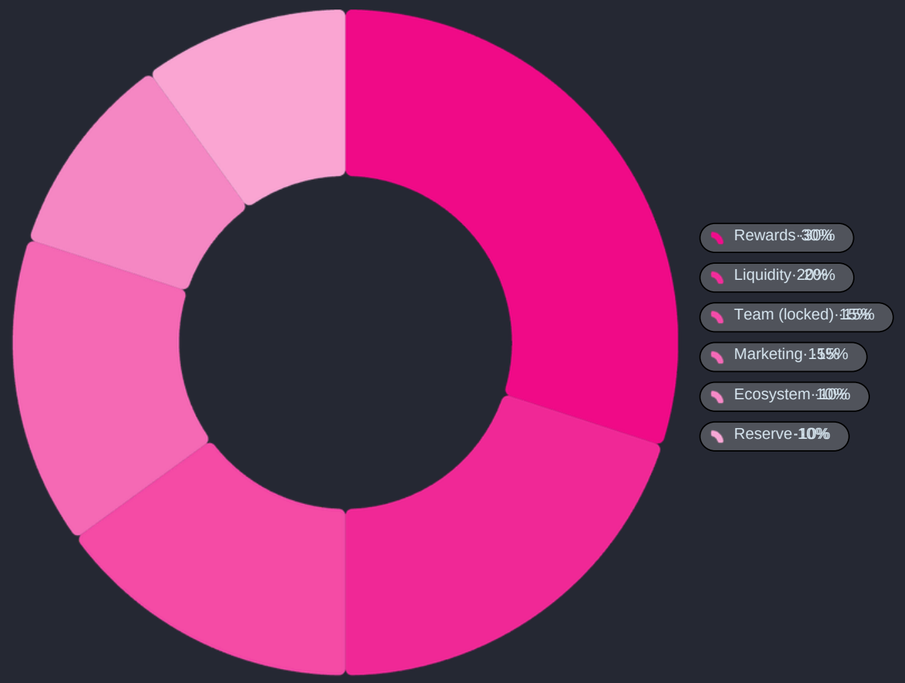
Platform fees on successful task completions and withdrawals.

TOKENOMICS

$EFX — the fuel of the EarnifyX economy

Utility

- **Rewards** for verified task completion
- **Staking** to boost earnings and unlock tiers
- **Governance** voting on protocol upgrades
- **Access** to premium campaigns and tools



ROADMAP

Our path to global scale

Phase 1
MVP Launch

Phase 2
$EFX Token Launch

Phase 3
AI Verification Integration

Phase 4
Mobile App Release

Phase 5
DAO Governance

Phase 6
Tier-1 Exchange Listings

THE VISION

Turning time into value through AI + Web3

To become the **global infrastructure for decentralized earning** — a trusted protocol where every verified action creates measurable value.

> Join the movement redefining how the world works, earns, and grows.
